

My project will be a game like snake or ping pong

4/19/2023

Today i am working on getting the first screen set up so you can choose your game

I finishe making a basic screen now i need too make it look good

I added a photo

For next time i need to start working on the pong game

4/21/2023

Today i am going to work on my pong game i am going to figer out all the stuff i need to make it i am also going to start researching on my itc tac toe game

Today i started working on tic tac i will contine on it

Next time i need to continu on working on it

4/25/2023

Today i am going to try and finish my tic tac toe code

Tic tac toe game works on its own but now i need to figer out how to trigger the game from the home screen

I am now making tic tak toe better but i amgoing to take a brake and work on the ping pong game

4/26/2023

I have finished making pong work now i need to make it look better

4/27/2023

Today i have been working onmy chec lits of stuff that needs to be done to get full points i am trying to figer out what i should wright to a file

I am going to have the game reslots print to a file each time but i am having a hard time figing out how to get it to print to a file its just not working

05/01/2023

Today i am working on finishing my loading file and seting up my test

I finished the save file and it workis enuf i may come back to it later  
I have also finished the tests

I now need to start working on my MVC architecture this will be something i finish a nother time but i can start it now.

05/03/2023

To day i just need to finish the last fwe things then i am done

I am done
